INTRODUCTION TO PEPITO (\$PEPI)

We welcome all to our lil Pepito! The Pepito Platoon is extremely proud to have wonderful holders joining us! Pepito is a token on the Binance Blockchain that gives its' holders auto-self reflections. Meaning that, just by holding some Pepito, you can earn more Pepito automatically based on the volume of trading. Nothing you have to do!

Pepito was initially thought up about by the developer as an idea based on the frog meme-token hype to follow in his fathers' footsteps (PEPE), as well as, his mothers' footsteps (PEPA). This powerful meme-token is not just your ordinary run of the mill meme-token.

With a very clever and memorable name and logo, a great story of birth, many current and upcoming utilities, our strong community, and much more; Pepito is here to take over the Binance space in the coming years! And remember: AT PEPITO, COMMUNITY IS FIRST!

TOKENOMICS

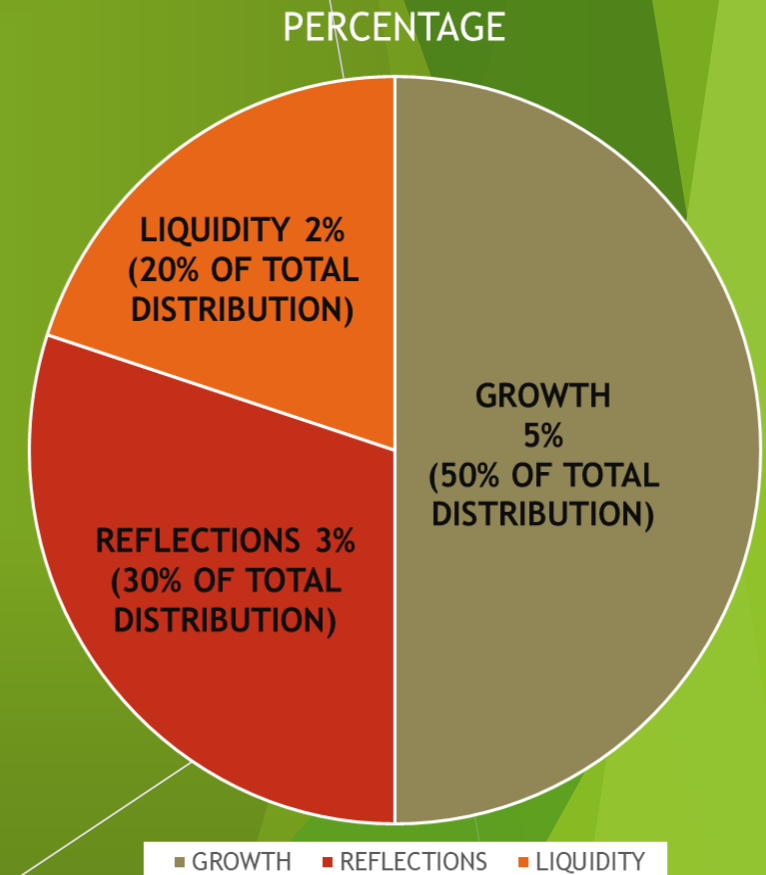

Initial Supply: 1 billion tokens

STAKING

- ▶ Stake your tokens to earn more Pepito with our very own staking platform. Current APY is at 300%. A 10% tax is applied to stake. Must stake for a minimum of 4 days to avoid an early withdrawal penalty of an additional 10%. After 4 days of staking, there is no tax for withdrawal. The taxes are there to maintain the rewards pool for staking.

LP Staking is available as well!

We offer staking platforms to anyone in need of them. How does this benefit Pepito, you may ask?! Our payment system will require anyone seeking them to pay .5 BNB worth of Pepito, burn it, and add a 1 BNB payment for seeking 1 of the staking options. For both staking option services, the same as above is required, except instead of 1 BNB payment, 2 BNB will be required.

A small portion of these sales will be distributed to all of our NFT holders!

NFT

▶ We have our first NFT collection edition “Pepito Platoon” of 500 total NFTs to be minted. Each NFT holder receives 10% rewards in Pepito from each new NFT minted. Holders will also be eligible to receive proceeds from any future brand sales and partnerships. With each NFT minted, proceeds will also be used to fund more marketing, and do buybacks. Each NFT holder will also be able to use their NFT in our upcoming game as a character. More collections to come in the future!

PLAY TO EARN GAME (P2E)

- ▶ Play to Earn (P2E) Game in Development- Our game in development is set to be a kart racing game where players will be able to compete with one another in a “Race to the Finish Line” to earn Pepito. An in game store will be available, where a player will be able to purchase in game boosts using \$PEPI to have an advantage. NFTs will also be integrated into the game as characters. You can use your very own NFT as a character in this very exciting virtual world! Players will be able to use their NFTs to get discounts on in game purchases for additional characteristics. We truly appreciate everyone in the Pepito Community! We look forward to evolving and growing together. Many things to look forward to. As we grow, holders increase, and the word spreads of Pepito, we will have many more opportunities in the DeFi space to expand our brand wherever we so choose. We can do this together by building our very own PEPITO PLATOON of a community! TOGETHER! COMMUNITY IS EVERYTHING TO US! REMEMBER THAT! We LOVE YOU ALL, and lets expand the PEPITO PLATOON and TAKE OVER THE CRYPTO WORLD!
